

HP

Jornada 420

Palm-size PC

**HP Jornada  
PC Companions**  
*For the ultimate  
day's journey*

Hewlett-Packard knows that it's not just the destination, but the journey that counts. That's why they created a complete line of PC companion products—the HP Jornada family—to make your every journey productive, enriching, and enlightening.

The newest member of the Jornada family, the HP Jornada 420 Palm-size PC, delivers on that promise with all the tools you need to access and manage your business information anywhere—in rich, living color.

# Jornada

- *Brilliant 256-color screen gives your data more impact*
- *Compact and lightweight—fits in your shirt pocket!*
- *Organize your schedule and contacts*
- *View e-mail and your favorite Web pages*
- *Receive critical information updates with FLEX™ paging support<sup>1</sup>*

Introducing an easy and affordable way to carry your important business information with you wherever you go. Hewlett-Packard's new HP Jornada 420 Palm-size PC provides convenient, highly readable access to the information you need while mobile. This compact machine contains all the tools you need to stay organized and connected no matter where you are.

## Go anywhere—and your information goes with you.

### *Carry your business information anywhere—in rich, vibrant color*

The HP Jornada 420 Palm-size PC is so lightweight and compact, you can drop it into your shirt pocket or handbag and carry your business information everywhere. And no matter where you are—and what the lighting conditions—its 256-color CSTN display makes it easy to identify critical data.

### *Instant access to the information you need*

The HP Jornada 420 was designed to provide automatic access to the information you need when you need it. Five buttons allow you to use the HP Jornada 420—to power it on and off, make voice recordings, scroll through and select text, and pull up the START menu—easily with one hand. You can also quickly launch the calendar, contact, or to-do information you need, plus the handy calculator, with its four configurable quick launch hard icons.

### *Smooth integration with the rest of your office*

The HP Jornada 420 runs on Microsoft® Windows® CE 2.11, which has the familiar look and feel of Windows 95/98 and NT® 4.0. This non-proprietary platform means you can use standard tools such as Microsoft Visual C++ for development. In addition, the HP Jornada 420 makes synchronizing and sharing information between your PCs simple. With Microsoft Windows CE Services 2.2, synchronizing contact information with your desktop PC is as easy as dropping the HP Jornada 420 into its docking cradle. And its integrated infrared capabilities allow you to share information with other infrared-enabled Windows CE PCs—without ever hooking the devices together!

<sup>1</sup> Paging solution available in the U.S. only in mid 1999.

# The HP Jornada 420 at Work

*How can the HP Jornada 420 help me?*

*"I need an easy way to keep track of my client information."*

The HP Jornada 420 includes Microsoft Pocket Outlook, an easy-to-use personal information manager that helps you track not only your appointments and to-do lists, but also essential contact information such as names, phone numbers, addresses, and important facts like price quotes. You can take notes about your sales calls with Note Taker software and the stylus, or make a quick voice memo with the Voice Recorder feature. You can also input new contact records with the on-screen keyboard and touchscreen interface.

*"When I'm on the road, I need to be in touch with my colleagues constantly."*

The HP Jornada 420 features an integrated CompactFlash card slot, so you can add a third-party modem card at any time. Coupled with Microsoft Pocket Inbox (included in Pocket Outlook), you can use the HP Jornada 420 to access your office e-mail. You can also use exclusive Inso™ Outside In™ software to easily open and view the e-mail attachments your co-workers send to you.

*"I need access to stock quotes at all times."*

With the HP Jornada 420's built-in support for FLEX paging<sup>1</sup>, you can add a Motorola CF1350 FLEX pager card and sign up with a third-party paging provider to receive automatic updates of crucial stock information. The HP Jornada 420 works just like your pager—except you get to view your pages easily and comfortably on its wide, color screen!

*"I always need to be up-to-date on breaking news."*

With its support for the Microsoft Channels browser, the HP Jornada 420 provides an easy way to view the latest news offline on your PC companion. Just subscribe to the Mobile Channel you desire—including the MSNBC Quicknews Channel—then download these content-specific Web pages to your HP Jornada 420 for quick viewing anytime.

*"I've got my PC companion in one hand, and my cellular phone in the other."*

With Trio® PhoneManager software<sup>2</sup> and integrated infrared capabilities, the HP Jornada 420 ensures your most up-to-date contact information is always at hand. Trio PhoneManager allows you to manage your GSM cellular phonebook from your HP Jornada 420. You can also use your PC companion when sending and receiving SMS messages with your cellular phone. The HP Jornada 420's larger screen and comfortable stylus make entering and reading these short messages easier.

<sup>1</sup> Paging solution available in the U.S. only in mid 1999.

<sup>2</sup> Trio PhoneManager 2.0 is included on CD-ROM in Europe and Asia Pacific. The software is downloadable from the Web for U.S. users.

## HP Jornada 420 Palm-size PC

### Part Number
